PORT: A Transportation S x

port.thinkport.org/workingattheport/explore/longshoreman.asp

This knowledge:

- How math, especially geometry, weight, and mass, is used in the job
- How trucks and other large equipment operate
- How to identify damages to shipping containers and repair them
- How goods are processed through a port

This training:

Longshoremen in Baltimore are trained to complete their jobs by the union (International Longshoreman's Association) that operates at the port. They receive training ranging from using heavy machinery and equipment, such as forklifts, to container and chassis repair.

This education:

This position does not require a high school diploma or a college degree.

Longshoremen make the Port of Baltimore one of the most efficient on the east coast.
